

Achieve great things as a Power User of Civil 3D.

Are you a dedicated Civil 3D specialist and interested in infrastructure projects? Join us and take on key tasks in the BIM development of Gruner's Infrastructure division!

Gruner is a leading engineering and planning company with many years of experience in complex construction projects in Switzerland and abroad, headquartered in Basel. In the business unit Infrastructure Basel, Environment, we offer engineering services in the fields of road and rail, environment, civil engineering and pipeline construction. We advise our clients and plan and support them in infrastructure projects for small and large requirements - at local, regional and national level.

As an important cornerstone of our unique teams located in **Switzerland** (Basel, Oberwil/BL, Bern) or Remote we are looking for a

CIVIL 3D-SPECIALIST 80-100%

That inspires you:

- > Skilled implementation of road and rail projects with software products of the Autodesk world as well as active interdisciplinary collaboration on BIM projects of the Infrastructure Business Units
- > Support and training of employees in digital planning technologies and their processes (1st priority Autodesk Civil 3D)
- > Assisting in the development and implementation of internal CAD/BIM standards and guidelines as well as reviewing these in project execution
- > Assumption of essential tasks in the BIM development of the business unit Infrastructure of Gruner

What we appreciate about you:

- > Engineering education TU/ETH/FH or, with appropriate experience, CAD designer specializing in civil engineering
- > Several years of experience in the planning of demanding infrastructure projects, if possible model-based
- > Experienced power user of Autodesk Civil 3D - Experience with other programs of the Autodesk Architectural and Engineering Collection (e.g., InRoads, Revit) is an advantage
- > German (or the willingness to learn it) and English language, knowledge of French would be an asset
- > Experience with IT interface management (data exchange in different software products)

What makes us unique:

- > an open, motivated team
- > an above-average company pension and occupational disability scheme
- > flexible working conditions to ensure a good work-life balance
- > exciting projects and professional development opportunities

We would be delighted to get to know you. For technical questions regarding the position, please contact Mr. Michael Bont, Head of Infrastructure Basel / Environment, on Phone **+41 61 317 63 41** or Mail michael.bont@gruner.ch

If you have any questions about the application process, please contact Mr. Maximilian Rothmund, Talent Acquisition Manager, at hr@gruner.ch
