

JAKOB SCHLAEPFER

**We are a leading global manufacturer of fascinating textiles for haute couture, prêt-à-porter and interior design. Our clientele includes internationally renowned fashion houses, independent designers and architects.**

**We are looking for:**

## **Embroidery Designer (100%)**

We are looking for a creative individual who is interested in designing high-quality textiles. Your focus will be on the design of innovative embroideries for our in-house collections as well as the development of specific customer requests for ready-to-wear and haute couture.

We are a young, dynamic team in which you will work with a high degree of independence and personal responsibility. You will have the opportunity to design for exclusive brands of the fashion world and to develop creatively. We offer you a thorough introduction so that you can learn, understand and apply all embroidery techniques from scratch.

You will accompany the entire development process of a new creation, from the first draft to the final pattern, always in close collaboration with the design team and production. For specific customer developments you work intensively with the identity of international brands and have a strong understanding of their needs.

We are looking for a person who is passionate about their work and combines creativity with technical know-how. You can realise your visions in a sophisticated way, enjoy experimenting with new materials and continuously expand your knowledge. Computer-based design and freehand drawing should be harmonized in your day-to-day work. For this knowledge of Adobe Photoshop and Illustrator is a must. You are characterized by your creative curiosity, never rest on past successes and are driven by the insatiable urge to constantly innovate. You are resilient, feel comfortable in the fast-paced world of fashion and are willing to work hard in hectic times.

**If this varied field of activity in a dynamic, challenging and lively environment interests you, we look forward to receiving your application. Please send your complete dossier including portfolio to Flavia Bamert, HR-Assistant**
