### Your responsibilities

Operational Excellence is a strategic target for us. Therefore we implement Lean Operations Controlling methods in all operations worldwide.

- > Together with your colleagues you are in charge of the worldwide implementation of our Operations Controlling system and lean principles to achieve Operational Excellence.
- > In this regard you will provide system-related trainings, create lean tools for employees in the regions and will facilitate to sustain the implemented Operations Controlling system.
- > You will ensure Lean Supply Chain Management by identifying potentials for improvement and support our manufacturing sites in the execution of optimization projects.
- > Your daily tasks include interaction with employees on all management levels.
- > At corporate level you support the development and digitalisation of the Operations Controlling along the supply chain in order to increase the operational performance.

### Your competencies and qualifications

- > University degree (preferably Master) in Industrial Engineering or Business Management
- > Up to 3 years of experience in Supply Chain Management, Lean Management or Operations Controlling
- > Process Management skills and excellent analytical and methodical competencies
- > Solid IT application skills (ERP, MES, BIS)
- > Knowledge in Smart Production, Digitalisation of advantage
- > Strong communication and advanced intercultural behavioural skills
- > Ability and willingness to conduct workshops, to bound and work with shopfloor employees
- > Excellent English and German language skills, other languages are an advantage
- > High willingness to travel (up to 75%)

### We offer

- > A modern and family work environment
- > Integration in a young, dynamic team
- > Challenging tasks with a high degree of self-responsibility
- > Individual performance will be remunerated and further development supported

Legally mandatory note: In line with the minimum salary stipulated in the collective agreement, the actual salary for this position is based on professional qualifications and experience.
