

Roarington is building the world's most immersive digital experience for classic cars, art, and luxury culture. We combine hyperreal driving simulators, digital twins, curated content and exclusive partnerships to create a unique platform for collectors, enthusiasts and premium brands. Our work sits at the intersection of automotive heritage, technology and luxury lifestyle. We grow and move fast, think entrepreneurially and expect ownership.

To strengthen our capabilities, we are looking for a

Client Project Manager

who enjoys working closely with high-profile clients in the classic car ecosystem like Mercedes-Benz Heritage, 1000 Miglia, Pininfarina, MAUTO or Zagato as well as with internal teams – leading complex projects from concept to execution, and expanding existing relationships through strong delivery.

Location

Vaduz, Liechtenstein (hybrid, up to 25% home office)

Your Role

As Client Project Manager, you take full ownership of ambitious client projects – from initial concept to market-ready execution. You collaborate directly with cross-functional client teams to create experiences that are commercially relevant and clearly visible. This is a hands-on role for someone who turns ambitious ideas into delivered results with structure and speed.

Key Responsibilities

- **Project Delivery:** Drive client projects from briefing to launch, ensuring quality, timely delivery, and tangible outcomes.
- **Client Collaboration:** Work closely with demanding partners to build premium experiences together – not just manage requests.
- **Account Development:** Expand engagements by delivering excellent work and identifying follow-up opportunities within ongoing relationships.
- **Stakeholder & Team Coordination:** Align internal teams and client expectations to maintain momentum.
- **Communication & Visibility:** Present progress, recommendations, and next steps clearly to clients, external partners and internal leadership.

Your Profile

- Bachelor's or Master's degree with 3–6 years of experience in consulting, a digital agency, or a client-facing project environment, delivering complex projects with real-world impact.
- Solid understanding of how digital products are built, launched and iterated, with the ability to translate client needs into concrete, user-facing solutions.
- Strong project management skills across scope, timelines, and budgets.
- Structured, pragmatic, and hands-on – you enjoy execution over theory.
- Confident communicator in German and English.

What We Offer

- High-visibility projects with premium clients and real, tangible outcomes.
- A key role with ownership, speed, and room to grow as Roarington scales.
- Direct collaboration with an entrepreneurial team – short decision paths.
- Flexible working model with a hybrid setup.
- Probably the best canteen in the country.

If you want to work close to the product, the clients and the business, and you enjoy responsibility over comfort, Roarington is the right place.
