UNSERE UNTERNEHMENSWERTE: EMPOWERMENT WALK THE TALK CUSTOMER FOCUS TEAM AGILITY

Today, we all find ourselves in a state of contradiction: the world is changing at an incredible speed and at the same time the need for safety is deeply rooted in each of us – regardless of where we live. It's good that there are forces that provide more security and stability in a changing world. At Safran Vectronix, we support these forces in their mission and make it our own: Dedicated to providing solutions to raise mission intelligence and mission safety, we are recognized as a global leader in state-of-the-art optronic equipment for military, systems, and sensors for military and civil applications. With 100 years of Swiss tradition and excellence we serve customers in more than 90 countries.

We bring our company values to life, and see Empowerment, Walk the Talk, Customer Focus, Team and Agility as the foundation of our daily work. If you share the same vision as us, we look forward to receiving your application for:

Field Application Engineer OEM Solutions (f/m/d) (Laser Rangefinders and Digital Magnetic Compasses)

YOUR MAIN TASKS WILL INCLUDE:

- Technical support to international customers during sensor integration and life cycle
- Perform training to internal and external customers worldwide
- Close teamwork with Product Management, Engineering and Sales
- Technical support to Sales Managers during business acquisition phase
- Technical support and consultancy to the Product Management
- Manage smaller projects such as customizations
- Develop and update technical product documentation

YOUR PROFILE:

- Bachelor's degree in electronics / optoelectronics with software background
- Minimum of 3 years of experience in development of hardware and/or software
- Experience in a customer oriented support position in B2B environment
- Strong ability to analyze and resolve problems
- Planning and coordination skills, experience in project management is beneficial
- Interpersonal and networking skills
- Fluency in English and German, French is a plus
- Willingness to travel (approx. 20%)

We work in intercultural teams and have an open and diverse culture. We offer tailored opportunities to develop your specialized and personal skill-set as well as a customized onboarding within the first months. This position is based at Safran Vectronix, located in Heerbrugg (Switzerland).
