

Connecting – today and beyond

HUBER+SUHNER designs and creates essential components that transport power and data through networks. This is how the employees around the globe contribute to a world where people get and stay connected. On behalf of HUBER+SUHNER we are looking for you as

Senior Application Engineer (a) 80-100%

Your tasks

Our high-frequency products provide significant value to our customers and we are proud to be the product and technology leader in various markets. To further expand our excellent presence, we are looking for you as a Senior Application Engineer to act as an important interface in-between external and internal key people, including our technical experts and purchasing teams in customer's organizations as well as our global sales organization, product management and development teams.

The main tasks of this interesting position are:

- Manage customer-specific development projects
- Provide trainings to our technical sales organizations (sales and field application engineering) and to customers on our radio-frequency and microwave products
- Support product developments
- Global travel in the range of 20%

Your profile

- Technical degree - preferably in electrical or communications engineering
- Knowledge of high-frequency technology is desirable
- Work experience in a manufacturing environment, ideally in a development or product management role
- Experience in a customer facing role is an advantage
- Strong communication skills, team player and open to an international work environment
- Fluency in German and English is a must

Why HUBER+SUHNER?

- 40-hour-week
- Up to six weeks of holiday
- Free car park
- Voucher for half-fare card (public transport)
- Subsidy to fitness & swimming subscriptions
- Corporate restaurant offering variety and fair prices
- Own pension fund with different saving plans to choose from
- and much more...

We look forward to receiving your application and assure you of complete confidentiality.
