

JAKOB SCHLAEPFER

We are a leading global manufacturer of fascinating textiles for haute couture, prêt-à-porter and interior design. Our clientele includes internationally renowned fashion houses, independent designers and architects.

We are looking for:

Print Intern

We are looking for a creative and innovative individual who is interested in designing high-quality textiles. Your main task will be to support the print team, especially in the development of specific customer requests and orders.

You will be working on prints for our various international customers, particularly in the retail sector. Therefore you will be adjusting existing artwork, developing colorways and creating new prints.

You will work closely with the team and have the opportunity to combine print design with other exciting textile techniques.

Ideally, you are looking for a 6-month internship as part of your textile/fashion design studies or have already completed your studies and are looking for your first work experience. Advanced Photoshop skills are a must.

If this varied field of activity in a dynamic, challenging and lively environment interests you, we look forward to receiving your application. Please send your complete dossier including portfolio to Flavia Bamert, HR-Assistent.
